Profile

ICT Engineer aiming to become a software developer. I am career changer who is always keen to learn something new. Previously I have long managerial and clinical background from healthcare sector in abroad and Finland.

Work Experience

SERVICE COORDINATOR

Coronaria Analysis Services |
11/2021 - 7/2022

Intern and thesis worker in a company that offers remote healthcare measurements, e.g. sleep apnea screenings for healthcare providers. Duties included providing technical support, system and equipment maintenance for clients, and participation in software development and product requirements definition.

DEVELOPMENT MANAGER

Kotihammas Oy | 10/2019 - 12/2019

Managerial duties of a private dental clinic and mobile dental care. Planning and implementation of the company's business development and participating in recruitment and marketing duties. In addition, the clinical tasks of the dental nurse and dental hygienist.

RECRUITMENT COORDINATOR

Med Group Oy | 10/2018 - 10/2019

Recruiting dentists, dental hygienists and dental nurses and acting as their administrative supervisor. Planning and implementation of operations according to contracts for outsourced oral health care services for customers. Sales and marketing of new service solutions. Newsletter design and content production together with the marketing team. Planning and participating in fairs and other events.
